Exceptional quality and performance. Caravan World clearly show that the GO Mat is the Leader in a product comparison challenge during 2013. Safety, quality and durability is the GO Mat way. One cannot land their aircraft on the GO Mat, but certainly use it to get yourself out of a BOG. The non slip surface is a beauty, and there is no slip-ability by having a twin layer of shade cloth like the others have. Our carpet style mat is the best ever.
