

CARAVAN & BOAT MOVER

The world's No. 1 remote control caravan and boat mover.

TUG2500

For dual or single axle caravans, boats etc. weighing up to 2500 kg.

RRP \$**3,900**

CARAVAN TUG - TUG2500 - \$3900

Both the Caravan Tug TUG2500 and the TUG1500 ensure hassle-free, safe manoeuvring and positioning of your caravan, boat, or trailer into tight spaces. Both models are supplied with an attachment bracket. Simply attach the bracket, connect your Caravan Tug, and using your handheld remote control, start positioning effortlessly your caravan or boat.

Caravan Tugs require no after sales installation, and dispense with the need for tools or electrical wiring. They also negate the use of your jockey wheel, eliminating the possibility of damage to your drawbar and/or jockey wheel.

Caravan Tugs can operate on a variety of surfaces (surface must be firm) thanks to its two heavy duty rubber tracks driven by planetary geared motors which are powered by a rechargeable lithium-ion battery.

The Caravan Tug moves at 9 meters per minute.

Caravan Tugs are revolutionary hi-tech products manufactured according to the most modern design principles combined with cutting edge technology.

TUG1500

For single axle caravans, boats etc. weighing up to 1700 kg.

RRP \$**2,695**
